MEMORANDUM FOR: Director of Communications

FROM: Edward J. Maloney
Director of Information TechnologySUBJECT: Request for Loan of Motorola MICOR VHF Repeaters for New
Headquarters Building (NHB) Communications Support [redacted]

1. OIT has a requirement to provide essential security and medical 2-way VHF radio support in the NHB by the July 1988 initial occupancy. OIT's Communications Engineering Division (CED) [redacted]

system. Unfortunately, Motorola's delivery schedule has increased from 4 weeks to 16 weeks which forces the scheduled in-service date well beyond the building initial occupancy. [redacted]

2. In pursuing alternatives, CED contacted representatives of OC's Special Activities Group (SAG). SAG identified 3 MICOR units [redacted] and indicated that 3 more units could be diverted to support the OIT NHB requirement. The loan of these units would permit OMS and one SPO network to be operational by the move in date. [redacted]

3. Subject to your concurrence, and with the proviso that the equipment loan will not adversely impact OC requirements, we will proceed with this arrangement with return of loaned units to SAG in mid to late July 1988. [redacted]

4. The OIT/EG/CED point of contact for this effort is [redacted]
